

GOODRICH LOGISTICS

Goodrich Logistics (Goodrich) in 7+ years of its existence, as a company has grown in a formidable manner to encompass within its scope, activities ranging from various spheres of shipping and logistics services.

Goodrich has expanded geographically from a small presence in Mumbai, India to various ports and ICD'S in India and overseas too.

Goodrich has strong presence in the entire tier I and tier II cities in India including Mumbai, Chennai, Kolkata, Delhi etc.

Besides this, today Goodrich has got a very strong presence in overseas locations like Afghanistan, Bangladesh, Kazakhstan, Malaysia, Pakistan, Singapore, China, Sri Lanka, Thailand, Turkey, UAE, Ukraine and in West African Countries through its subsidiary companies / joint ventures.

Goodrich has cumulative direct employee strength of around 150 people.

Goodrich Logistics owns 8,000 plus containers of its own which includes normal 20GP, 40GP, 40HC, Open Tops (both 20ft & 40ft), Flat Racks (both 20ft & 40ft) etc.

Time and again, Goodrich has been recognized as the "Best Logistics Company" for Afghanistan and CIS Trade in South Asia.

In Last few years our major volume movements was towards Afghanistan, South Asian countries (Majorly into Bangladesh, India & Pakistan), Gulf & West African countries.

From a predominantly India centric operations, the Goodrich as of today has multiple global operations in some of the most difficult geographical terrains having extreme security challenges.

Just to very briefly conclude, in last 3 years, Goodrich Logistics have delivered almost 8500 containers and almost 4500 tons of break bulk cargo into various War Zones including Afghanistan (from various parts of the world) via Karachi for the projects funded by USAID, ADB, World Bank etc....

Besides above Goodrich Logistics have delivered at various sites in Bangladesh more than 3000 containers in last 2 years.

We are specialist in planning and execution of supply chain and logistics projects in the difficult to most difficult terrains and geographies of the world.
